Announcing the new **MagShield™** feature for the **PHOENIX/PHOENIX Elite/BluSkye™ Series** speaker microphones. The **MagShield™** is a custom engineered acoustic shroud designed to significantly reduce/eliminate ingress of metalized filings and dust into the speaker cavity *without degrading or decreasing speaker output level*. It is essential in preserving receive (Rx) audio performance when used in railroad, mining, machining, metal fabrication, foundry, etc. environments. **MagShield™** is also very useful in maintaining Rx audio performance in extremely dusty, dirty, sandy, etc. environments such as fire fighting, coastal, chemical/concrete/food processing, etc. Call Stone Mountain at 888.244.9306 for details on how to order.
