Stone Mountain Tru*Blu*™ Bluetooth® Microphone User Manual

The Stone Mountain **Tru*Blu*™** Bluetooth® microphone is a compact wireless microphone that supports Android and iOS devices running Push to Talk (PTT) applications[1] as well as full duplex phone calls[2]. The 3.5mm audio jack allows for discrete communication, as well as playing media from the paired device[3].

Starting Out
Charge the microphone for at least two (2) hours prior to first use. The LED will turn red to indicate charging, and blue to indicate that charging is complete. When plugged in to charge, the microphone will reset and power off.

Labels: 3.5mm Audio Jack, Microphone, PTT Button, Volume Up, LED Indicator, Power Button, 5V Micro USB Charging Port, Volume Down

Button	Primary Function	Additional Function
Power Button	Power On/Off, Pairing	• Play/Pause Music • Call Answer/Reject
PTT Button	Engage PTT in supported apps	N/A
Volume Up	Long Press: Increase volume of paired device	Short Press: Media Control – Next Song
Volume Down	Long Press: Decrease volume of paired device	Short Press: Media Control – Previous Song

Notes:
1. Supports major OEM PTT applications including Zello, Zebra, ESChat, Wave, etc.
2. Cellular service required.
3. This headset does not have an integrated speaker. All audio must be routed through an accessory connected to the 3.5mm audio jack.

Operating the Headset

Power On: Press and hold the power button for two (2) seconds and release. The LED will briefly turn purple, then blink red once. The headset will audibly say "Power On", accompanied by a **beep**. The LED will then blink blue.

Power Off: Press and hold the power button for four (4) seconds. The LED will briefly turn purple, and audibly say "Power Off".

Pairing: Power off the headset. Press and hold the power button for six (6) seconds and release when the LED starts flashing red and blue. Follow the instructions of the device/phone to connect and pair the headset, selecting "B02PTT". Upon successful pairing, the headset will audibly say "Pairing successful", followed by "Connected" along with a short **beep**.

Transmitting Audio (Tx): To transmit audio, press the PTT button, and speak into the microphone. To avoid distortion, keep the microphone ~6" from your mouth. Release the PTT button when finished transmitting.

Receiving Audio (Rx): Incoming audio will automatically be received and played through the accessory attached to the 3.5mm audio jack.

Phone Call Control: Press the power button to answer or terminate an incoming call. To reject an incoming call, quickly double-press the power button.

Media Control: When playing music or other media, press the power button to play and pause media. Press the Volume Up button to switch to the next item in the playlist and press the Volume Down button to switch to the previous item in the playlist.
