

TruBlu™ Bluetooth® Wireless Microphone for Push-to-Talk over Cellular Apps

The Stone Mountain TruBlu™ Bluetooth® headset is a compact wireless microphone that supports LMR and LTE Android and iOS devices running Push to Talk (PTT) applications and full duplex phone calling¹. The 3.5mm audio jack allows for discrete communication, as well as playing media from the paired device.

Features Include:

- Large, super tactile PTT button
- Dual-purpose volume and media controls
- Full duplex phone call support
- Secure 360° rotating lapel clip
- Micro-USB charging cable
- Multiple, interchangeable earpiece options
- Optional **QuickPair™** NFC pairing – Add USD7.50

Applications:

- Retail
- Security
- Transit
- Industrial
- Hospitality
- Festivals
- Event Venues
- Commercial
