

BluSkye® Android Quick Start Guide for Zello

For the most up-to-date app settings and configurations, check zello.com/support.

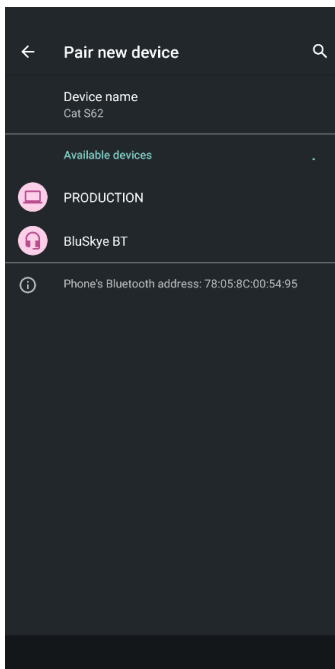

1. Ensure your **BluSkye®** Speaker Microphone (SM) is powered off. Press the power button for 6 seconds. The SM will beep twice at 3 seconds, and twice again at 6 seconds. The LED will begin to alternate between blue and red.

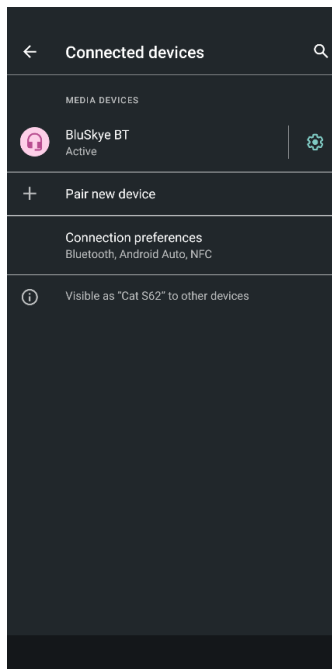

2. For devices equipped with NFC, navigate to **Settings > Connected Devices > Connection Preferences** and toggle **NFC** on. For devices without NFC, skip to step 4.

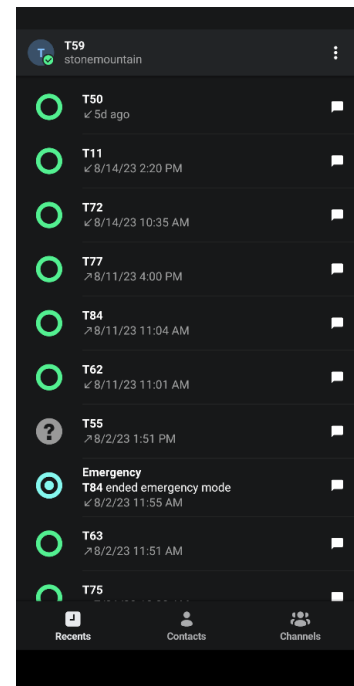

3. Slowly move your **BluSkye®** across the back of your device until a pairing dialog appears. Follow the prompts and select **“Pair”** to complete pairing. Skip step 4.

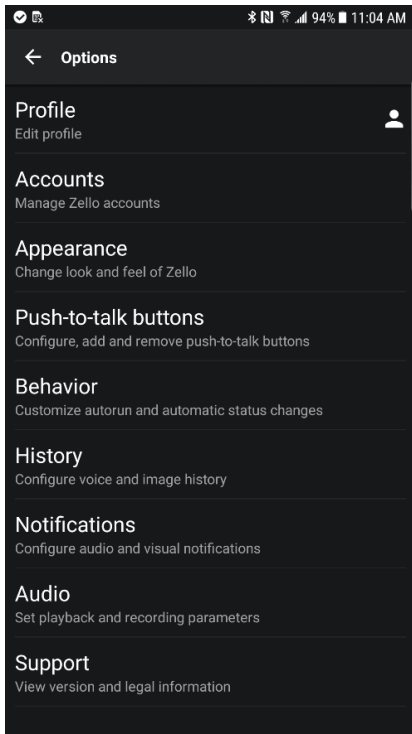

4. For devices without NFC, navigate to **Settings > Connected Devices > Pair New Device**. Select **BluSkye BT**.

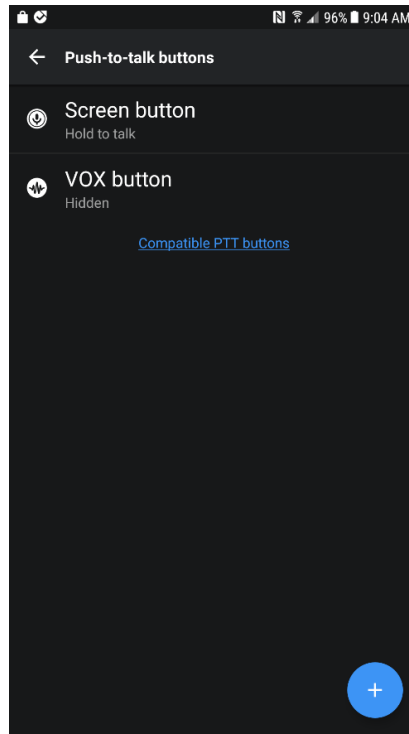

5. Once paired the SM will beep twice and the LED will begin to blink blue.

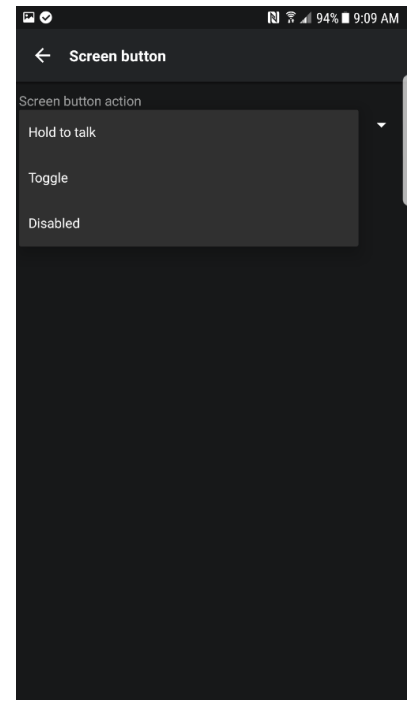

6. Launch **Zello** and tap the 3 dots in the upper right corner.

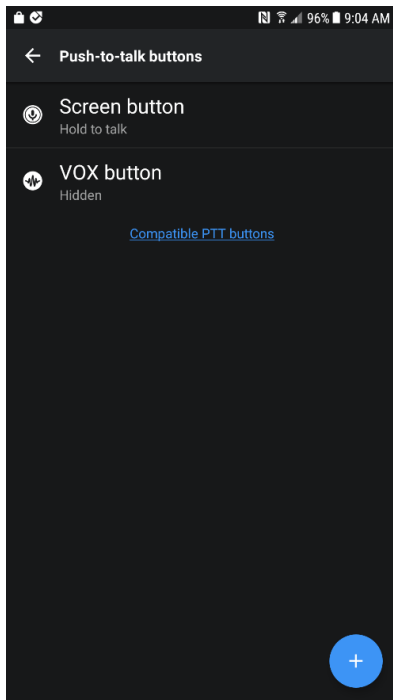

7. Select **Push-to-talk buttons**.

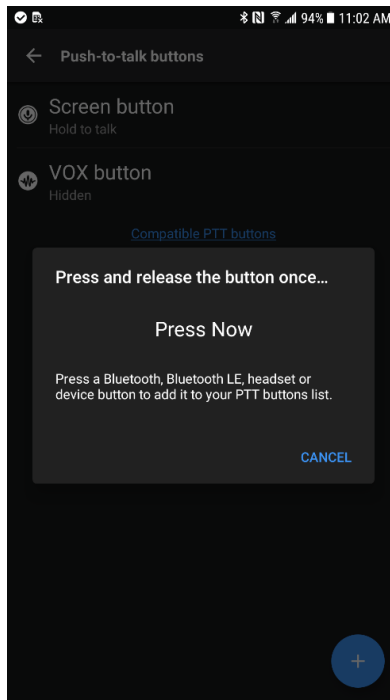

8. Select **Screen button**.

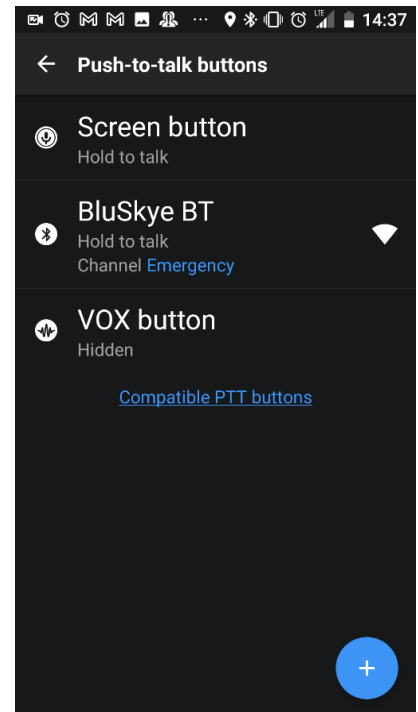

9. Select **Hold to talk**. Select the back arrow.

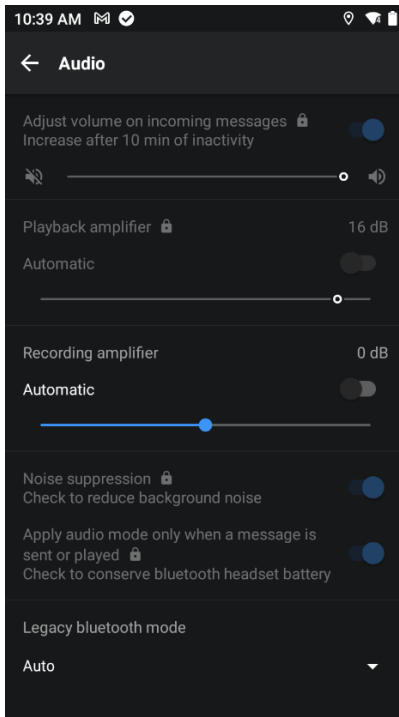

10. Select **“+”** symbol.

11. Press and release the PTT button once on **BluSkye® SM**.

12. BluSkye BT is mapped. Select the back arrow to **“Settings”**.

13. Select **Audio**. Ensure “Apply audio mode only when a message is sent or played” is enabled. For Zello for Work users, this may need to be configured in the administrator portal.

Enabling Automatic PTT Mapping (Zello for Work users only):

In the administrator portal, navigate to **Settings >> Android**. Under **Wireless Accessories**, select **Enable automatic mapping of PTT button when bluetooth device is paired**.
